

ALACRANISMO

Dra. Rocío Isabel Camacho-Ramírez 1 , Enf. M. Hilda Sánchez-Zapata1 , Biólogo Rubén Jaramillo-Serna2 , Dr. Ricardo Ávila-Reyes3 1 Departamento de Epidemiología Clínica. Hospital Infantil de Tamaulipas 2 Departamento de Entomología. Laboratorio Estatal de Tamaulipas 3 Departamento de Enseñanza en Posgrado e Investigación. Servicios de Salud de Tamaulipas

Epidemiología y cuadro clínico del alacranismo

Dr. Víctor M Granja Bermúdez,* Dr. Raúl Martínez Zúñiga,** Dra. Patricia Chico Aldama***

Una especie nueva de alacrán del género *Centruroides* de importancia médica (Scorpiones: Buthidae) del estado de Guerrero, México

José Guadalupe Baldazo-Monsivaiz¹, Javier Ponce-Saavedra^{2*} y Miguel Flores-Moreno³

Picadura de alacrán en el niño. Presentación de un caso

Nidia Elina Méndez Díaz¹, Odalys Cáceres Roque², Xiomara Rivero Placencia³, Dinaisy García Torres⁴.

El estudio de los componentes del veneno de alacranes en el contexto de la biología molecular, la farmacología y la medicina

Lourival Domingos Possani Postay

Scorpion Envenomation Treatment & Management

Updated: Apr 22, 2016

- Author: David Cheng, MD; Chief Editor: Joe Alcock, MD
-

C-Terminal residues in small potassium channel blockers OdK1 and OSK3 from scorpion venom fine-tune the selectivity.

Kuzmenkov AI¹, Peigneur S², Chugunov AO³, Tabakmakher VM⁴, Efremov RG³, Tytgat J², Grishin EV⁴, Vassilevski AA⁵.

Serum level of scorpion toxins, electrolytes and electrocardiogram alterations in Mexican children envenomed by scorpion sting.

Osnaya-Romero N¹, Acosta-Saavedra LC², Goytia-Acevedo R³, Lares-Asseff I⁴, Basurto-Celaya G⁵, Perez-Guille G⁶, Possani LD⁷, Calderón-Aranda ES⁸

Bothriurus bonariensis scorpion venom activates voltage-dependent sodium channels in insect and mammalian nervous systems.

Dos Santos DS¹, Carvalho EL², de Lima JC², Breda RV³, Oliveira RS⁴, de Freitas TC⁵, Salamoni SD³, Domingues MF⁵, Piovesan AR⁵, Boldo JT², de Assis DR³, da Costa JC³, Dal Belo CA⁶, Pinto PM

Scorpion envenoming caused by Tityus cf. silvestris evolving with severe muscle spasms in the Brazilian Amazon.

Monteiro WM¹, de Oliveira SS², Pivoto G³, Alves EC², de Almeida Gonçalves Sachett J², Alexandre CN⁴, Fé NF³, Barbosa Guerra Md², da Silva IM², Tavares AM³, Ferreira LC², Lacerda MV

Broadening the neutralizing capacity of a family of antibody fragments against different toxins from Mexican scorpions.

Rodríguez-Rodríguez ER¹, Olamendi-Portugal T¹, Serrano-Posada H², Arredondo-López JN¹, Gómez-Ramírez I¹, Fernández-Taboada G¹, Possani LD¹, Anquiano-Vega GA³, Riaño-Umbarila L⁴, Becerril B⁵

Evaluation of intoxicated patients hospitalized in a newly-opened level two pediatric intensive care unit.

Güngörer V¹, Yıldıırım NK¹

Clinical update on scorpion envenoming.

Cupo P

Intra-aortic balloon pump (IABP) rescue therapy for refractory cardiogenic shock due to scorpion sting envenomation.

D'sa SR¹, Peter JV¹, Chacko B¹, Pichamuthu K¹, Sathyendra S².

Clinical and Laboratory Characteristics of Pediatric Scorpion Stings: A Report From Southern Iran.

Dehghankhalili M¹, Mobaraki H, Akbarzadeh A, Yazdani R, Nazemi A, Ghaffarpassand F, Mohammadi Z, Shahzad ME, Mohmudi F, Taghavi M, Dehghankhalili S.

Scorpion stings in pregnant women: an analysis of 11 cases and review of literature.

Kaplanoglu M, Helvacı MR.

Assessing and managing spider and scorpion envenomation.

McGhee S¹, Weiner A², Finnegan A³, Visovsky C¹, Clochesy JM¹, Graves B¹.

Clinical and Epidemiological Aspects of Scorpionism in the World: A Systematic Review.

Santos MS¹, Silva CG², Neto BS³, Grangeiro Júnior CR⁴, Lopes VH⁴, Teixeira Júnior AG⁵, Bezerra DA⁴, Luna JV⁴, Cordeiro JB⁶, Júnior JG⁴, Lima MA⁷

Scorpion bite, a sting to the heart!

Agrawal A¹, Kumar A¹, Consul S², Yadav A¹.

Fatal ischemic stroke following Tityus serrulatus scorpion sting in a patient with essential thrombocythemia.

Bucarechi F^{1,2}, De Capitani EM^{1,3}, Fernandes CB¹, Santos TM⁴, Zamilute IA⁵, Hyslop S^{1,6}.
